### STEP1

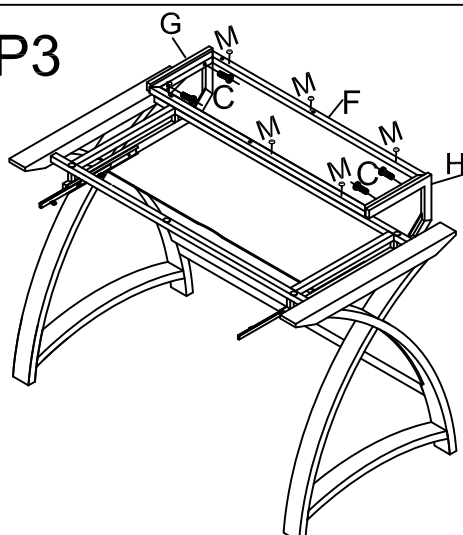

Fit runners to metal brackets using bolt "E", start by sliding the runner until it is fully extended then proceed to secure rear of runner first, making sure you use the hole furthest back, Then close the runner and secure the front using the hole that is now aligned

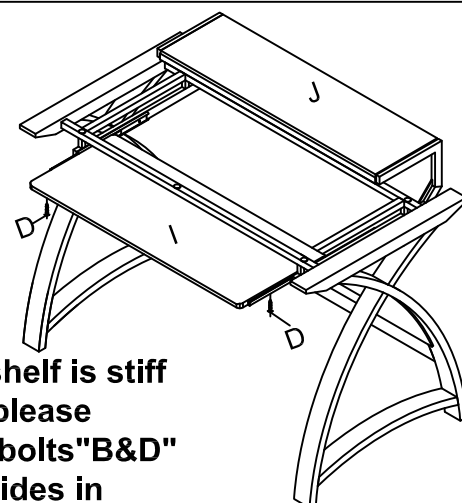

### STEP2

### STEP3

### STEP4

If the keyboard shelf is stiff to operate, then please slightly slacken bolts "B&D" on one or both sides in step2 until it moves freely.
